

## **Don Brawley**

### **Founder**

Don Brawley founded Eternal Reefs, Inc. in 1998 to provide ecological cremation memorials in artificial reefs. Eternal Reefs was formed as an offshoot of the Reef Ball Development Group (RBDG). Don co-founded RBDG in 1992 to design and build artificial reefs. Don served as Vice President of Research and Development and was instrumental in designing the "Reef Ball" artificial reef system, used world wide to replenish dwindling natural reef barriers.

Before his work with artificial reefs, Don worked in the computer field in various positions. His responsibilities included developing software, maintaining servers, web site design and maintenance, programming, system analysis and customer support.

Don earned a bachelor's degree in Psychology from the University of Georgia with special interests in Economics and Sculpture.

Don and his wife Jane reside in Atlanta, Georgia with their two daughters where they raise orchids and are actively involved in their community. Don is an avid scuba diver and environmentalist.
